

Where**Fabric**Comes**Alive**

# Tension Fabric Systems

Our range of Tensioned Fabric Systems provides the freedom for creative expression and limitless potential to create truly unique work environments in all sectors of the commercial market. Perfect for receptions, foyers, meeting rooms, retail, exhibition construction and contemporary architecture.

This versatile system with the option for single or double-sided graphics can be freestanding, curved, flat or arched, wall mounted, backlit or even suspended from the ceiling.

# Wall Coverings

Combining technology and the flexibility of printed fabrics, ideas and spaces can all be brought to life to create graphically designed environments that not only stand out visually, but also inspire people to think differently with great solutions for covering large surfaces with big images.

We offer a digitally printed wall covering service with a wide range of high quality printed wall coverings that are ideal for architectural, interior design or exhibition construction.

# Backdrops, Banners & Flags

Large-format printed fabrics are ideal for stunning backdrops, fascinating images, mega-messages and brand presence.

Backdrops, banners, flags, hanging displays, fence signage, speaker scrims, display walls, cafe barriers, etc. are ideal for outdoor festivals, concerts, sports events and exhibitions. These all display printed fabrics to their best effect in terms of diversity, versatility and visual impact.

# Creative Structures

Coral specialises in producing innovative fabric shapes including cylinders, rings, spheres, cubes and simple curves. A combination of lightweight architectural metalwork, visual imagination and vibrant printed fabrics - perfect for transforming any area into a dramatic space for that wow factor.

Whilst commanding attention due to their presence when suspended in the air, they also offer a truly unique option for creative communication.

At Coral we understand how fabric works and its effectiveness to communicate wherever style and performance intersect. Our product knowledge and vast experience of working with digitally printed fabric means that clients can be certain their images are reproduced to stunning effect every time.

Creative structures, tensioned fabric systems, breakout pods, atrium art, backdrops, wall coverings, in-store displays, banners, flags and a whole lot more is now possible by printing onto fabrics with Coral.
